Case of the issue::

LIPOMA WITH A CARTILAGINOUS METAPLASIA: A RARE VARIANT

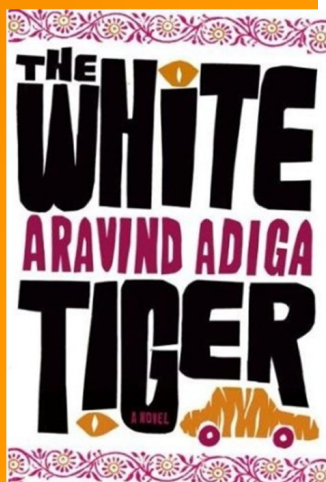

Clinical photograph of growth

Histopathological photograph

We report a case of chondrolipoma in a 35-year-old male patient presented with a painless mass on the posterior dorsal surface of tongue, present since 20 years. The lesion showed slow growth, with no increase in size for past many years associated with mild difficulty in swallowing. On Intraoral examination, the growth was nodular, oval in shape, sessile and well circumscribed, measuring approximately 1 x 1 cm in diameter. The overlying mucosa was pale and surface smooth. (Figure 1) Mass was firm in consistency with no tenderness or discharge.

Conservative surgical excision was done and on histopathological examination, tumor was composed of a well circumscribed mass of mature fat cells covered by stratified squamous epithelium containing small foci of hyaline cartilage within the tumor mass. (Figure 2) A confirmed diagnosis of chondrolipoma was made. This paper discusses the clinical and histopathological features of this rare variant of lipoma.

Suggestive Reading ::

The White Tiger is the debut novel by Indian author Arvind Adiga. The novel provides a darkly humorous perspective of India's class struggle in a globalized world as told through a retrospective narration from Balram Halwai, a village boy. In detailing Balram's journey first to Delhi, where he works as a chauffeur to a rich landlord, and then to Bangalore, the place to which he flees after killing his master and stealing his money, the novel examines issues of religion, caste, loyalty, corruption and poverty in India. Ultimately, Balram transcends his sweet-maker caste and becomes a successful entrepreneur, establishing his own taxi service. In a nation proudly shedding a history of poverty and underdevelopment, he represents, as he himself says, "tomorrow.". It captures the unspoken voice of people from "the Darkness" – the impoverished areas of rural India.

VISIT BY DCI PRESIDENT:

Lightening of the lamp and the inauguration ceremony and conduction of CDE program.

Inauguration of auditorium by Dr. Debyendu Majoomdaar.

Upcoming Events ...

- Awareness march past will be organized on World Population day on 11th July 2013.
- Prize distribution on 15th August 2013
