LAST TOMORROW - ERRATIC

The conflagration of veins in body - slave and ruler of own.

Chagrin, If not a walk in the winter sun ??

Then bust a gut to spin in the drizzle.

If not the sunbeam to be dote on;

Let not slip ! Moon beam has it's graveness --

"peerless and elegant in it's own variant"

Unlike the celestial, our entity is fleeting.

So let not fail to take in the prospect of holding on dear, their existance -

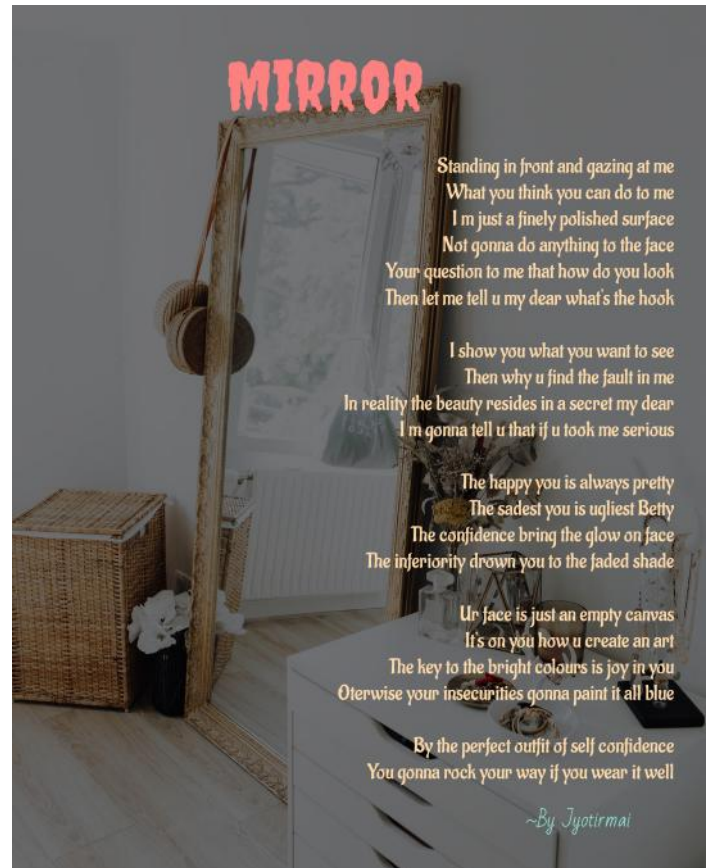

*** TILL OUR VERY LAST TOMORROWS***

MIRROR

Standing in front and gazing at me
What you think you can do to me
I m just a finely polished surface
Not gonna do anything to the face
Your question to me that how do you look
Then let me tell u my dear what's the hook

I show you what you want to see
Then why u find the fault in me
In reality the beauty resides in a secret my dear
I m gonna tell u that if u took me serious

The happy you is always pretty
The sadest you is ugliest Betty
The confidence bring the glow on face
The inferiority drown you to the faded shade

Ur face is just an empty canvas
It's on you how u create an art
The key to the bright colours is joy in you
Oterwise your insecurities gonna paint it all blue

By the perfect outfit of self confidence
You gonna rock your way if you wear it well
